

Advertise directly to a granular and engaged audience of media executives in control of 85% of UK advertising spend

What is MediaTel?

MediaTel is the largest single-source of media intelligence available online in the UK, and is the first stop for media executives at over 150 of the UK's biggest media companies, including all the major media agencies.

MediaTel provides media professionals - in particular planners and buyers - with an extensive archive of in-depth data from a number of major research sources, plus daily-updated media news and analysis.

Additionally, MediaTel is used by media researchers and strategists, as well as universities. The latter translates into graduate employees of media agencies commencing their roles with a strong familiarity of the product.

The site also distributes two email bulletins per week to a wider audience of 7,500+ media professionals. A popular Friday news round-up and a well-respected opinion based newsletter, Media Leaders, providing leading industry comment and analysis.

Launched in 1981, MediaTel's intuitive functionality enables users to quickly access and analyse available media opportunities and trends. All the data and research on the system can be downloaded into spreadsheets or office software for instant use in presentations and pitches.

The majority of monthly usage is generated by users at the 106 subscribing media agencies. These agencies accounted for 85% of UK display advertising billings in 2010.*

* Nielsen Media Research: Reported and allocated 2010 display billings at named top 500 media agencies.

Why advertise?

With the majority of the 150,000 monthly page impressions being generated by the media planner / buyers and the account exec / manager / directors, the site provides an ideal opportunity to reach a highly granular audience of key-agency professionals, when they are deciding where to allocate spend.

Advertising on MediaTel offers clear branding opportunities, as well as lead generation by directing traffic to your site.

Monthly Traffic Figures

MediaTel has approximately 4,750 registered users with 2,000 accessing the system in a typical month.

Monthly Breakdown by Job Title
